

8000 Series Open Shelving Sections ...

The Industry Standard, Nationwide!

- High visibility — ideal for storing packaged stock, and other material without assigned shelf locations.
- Lapped and welded shelf corners provide added strength and durability.
- All pre-engineered sections are 36" wide, 84" high, with shelves adjustable on 1½" centers.
- Meet varying capacity requirements by assembling mixed or matched sections of the same depth and height.
(Example: Combine 36" w x 12" d x 84" h section with 42" w x 12" d x 84" h or 48" w x 12" d x 84" h sections to accommodate different size packages, products or equipment within the same basic system.)

FIVE SHELF

Lyon Shelf Clips

Quickly lock into place, on either side of uprights. Disengages easily to re-position shelves, no tools needed.

T-Post Uprights

Patented design, formed of tough, durable hot-rolled steel affords easy shelf adjustments on 1½" centers using Lyon shelf clips.
