

**There
is a
problem
lurking
in public
places.**

Society has become increasingly aware of the need to prevent the growth of bacteria, mold and fungi, especially in public facilities like schools and hospitals.

Common topical antimicrobial treatments, such as ethyl alcohol, antibacterial soaps and disinfectant sprays, do kill harmful germs, but provide no residual protection and do not prevent recontamination.

The best solution for long term protection and cleanliness, therefore, is to use antimicrobial substances on surfaces at risk for bacterial/fungal growth, or cross contamination through the touch transfer of these microbes.

Lyon Healthcare Lockers specifically address this problem with an advanced powder technology in partnership with DuPont and Agion™ Antimicrobial.

Lockers For Healthcare

For a Cleaner Environment

Healthcare administrators recognize the need to prevent the growth of harmful germs in their facilities that might infect the very patients they are pledged to protect.

Locker facilities are at risk for bacterial/fungal growth and cross-contamination through touch transfer of these microbes.

Lyon Healthcare Lockers are finished in an advanced powder coating technology from DuPont and Agion® **Antimicrobial** that inhibits bacterial, mold and fungal growth on locker surfaces – 24 hours a day!

Here's how it works: Any moisture on the locker surface triggers the controlled release of powerful, germ-killing silver ions that provide around-the-clock antimicrobial protection – for decades. The **Antimicrobial** compound is completely inorganic, less toxic than ordinary table salt, less irritating than talcum powder, and has been approved for medical devices and food contact applications.

The cost for Lyon's **Antimicrobial** finish is nominal considering it will provide continuous protection for the estimated 20-year life of the lockers.

Important: Because of their **Antimicrobial** properties, Lyon Healthcare Lockers are also recommended for foodservice applications and educational facilities of all types.

Lyon Healthcare Lockers are available from stock in the most popular single and double tier models. Stock finish is Light Gray. (Other models, sizes and colors available on request.) Contact Lyon for pricing.

Lyon Healthcare Lockers feature Antimicrobial coating, recessed handles, smooth fronts (no louvers), sloping tops and EZ closed bases*. Single tier lockers have a coat rod, plus top and bottom shelves; double tier lockers have one double prong and three single prong hooks.

***Note: Add 4" to overall height for EZ base**

Tiers	Description	Opening Size	Cat. No.
1	1-wide, knocked down	15"w x 18"d x 72"h	UGRHNS5062H
1	1-wide, set up ^s	15"w x 18"d x 72"h	UGRHNS5062HSU
1	3-wide, knocked down	15"w x 18"d x 72"h	UGRHNS5062-3H
1	3-wide, set up ^s	15"w x 18"d x 72"h	UGRHNS5062-3HSU
1	1-wide, knocked down	18"w x 18"d x 72"h	UGRHNS5092H
1	1-wide, set up ^s	18"w x 18"d x 72"h	UGRHNS5092HSU
1	3-wide, knocked down	18"w x 18"d x 72"h	UGRHNS5092-3H
1	3-wide, set up ^s	18"w x 18"d x 72"h	UGRHNS5092-3HSU
2	1-wide, knocked down	12"w x 12"d x 36"h	UGRHNS5202H
2	1-wide, set up ^s	12"w x 12"d x 36"h	UGRHNS5202HSU
2	3-wide, knocked down	12"w x 12"d x 36"h	UGRHNS5202-3H
2	3-wide, set up ^s	12"w x 12"d x 36"h	UGRHNS5202-3HSU
2	1-wide, knocked down	12"w x 18"d x 36"h	UGRHNS5222H
2	1-wide, set up ^s	12"w x 18"d x 36"h	UGRHNS5222HSU
2	3-wide, knocked down	12"w x 18"d x 36"h	UGRHNS5222-3H
2	3-wide, set up ^s	12"w x 18"d x 36"h	UGRHNS5222-3HSU

Important: EZ base ships knocked down. Some easy assembly required.
